2023 VENTURE CATALYST APPLICATION PACK

Venture Catalyst is a program by the University of South Australia, designed to develop and grow founders with innovative or disruptive ideas.

ABOUT THE PROGRAM

Venture Catalyst is a six-month program of support to develop founders with innovative ideas delivered by UniSA's startup incubator, the Innovation & Collaboration Centre (ICC).

CATEGORIES

There are three categories in the Venture Catalyst program:

1. GENERAL

supported by UniSA

2. SPACE

supported by the South Australian Space Industry Centre (SASIC) - this category is currently closed.

3. SOCIAL ENTERPRISE

supported by the Pank Family.

Detailed information on each category below.

PROGRAM BENEFITS

All categories receive:

- A series of capability leadership workshops designed for founders (two per month)
- 1:1 mentoring and group sessions with technical experts
- Dedicated work space in a modern co-working environment including access to meeting spaces, kitchen and wifi in the Innovation & Collaboration Centre (metro and regional).
- A stipend of up to \$10,000 for eligible startups
- Access to a global pool of industry experts.

WHAT IS A STARTUP?

The ICC describes a startup as a company working to solve a problem or disrupt the market in some way. Disruption describes innovations that displace – or dramatically interrupt – how we think, behave, live and do business.

Generally speaking, Venture Catalyst will not accept applications for the following reasons:

- The venture is a 'small business' (e.g. cafes, restaurants, and fee-for-service consultancies)
- The idea is too similar to other products/services in the market and the point of differentiation is not adequately demonstrated
- The venture requires a different level or type of support beyond the scope of Venture Catalyst (e.g. venture capital or R&D funds)
- The application proposed is for a technology to be licensed not for the creation of a startup.
- The business is not economically viable to be undertaken in South Australia.

INTERNATIONAL APPLICATIONS

We will accept applications from overseas founders who would like to bring their startup idea to South Australia.

University of
South Australia

GENERAL

SUPPORTED BY THE UNIVERSITY OF SOUTH AUSTRALIA

The General category is the place for a scalable idea or startup with a focus on (but not limited to) technology, across all industries.

The program is tailored to each successful applicant based on the stage of their startup and specific needs.

Working with the ICC team, former Head of Entrepreneurship and Venture Capital Relations at Microsoft, Kirk Drage and a network of global industry experts, the general category is open globally to anyone with an innovative, scalable idea.

WHO CAN APPLY?

Students, staff and alumni of the University of South Australia may apply.

Applications from teams of two to four people are strongly encouraged.

Overseas applicants are also encouraged.

If you are applying from outside of Australia, we would encourage you to submit your application as early as possible.

SPACE

SUPPORTED BY THE SOUTH AUSTRALIAN SPACE INDUSTRY CENTRE

Delivered by the University of South Australia's Innovation & Collaboration Centre (ICC), and supported by the State Government, the program has a strong history of connecting founders with a global pool of industry experts, including stakeholders from NASA, the Australian Space Agency, Defence SA, Airbus and the Smart SatCRC.

Since its inception in 2018, Venture Catalyst Space has supported 36 space startups. The program has helped fast-track the cohort's market entry, accelerate their commercialisation journeys, and strengthen their connections to investors and researchers.

The program is delivered in Adelaide, South Australia. Adelaide is Australia's space capital, and is home to the stakeholders mentioned above as well as the the Australian Space Discovery Centre and key commercial entities like Fleet Space Technologies, Southern Launch, and Myriota. The space ecosystem in Adelaide is thriving, and there is huge commercial benefit in establishing your space venture in Adelaide. We recommend that founders and startups from overseas and interstate take this into consideration when applying for the program.

[Visit our website for the definition of a space startup.](#)

WHO CAN APPLY?

Anyone globally.

Applications from teams of two to four people are strongly encouraged.

Overseas applicants are also encouraged.

If you are applying from outside of Australia, we would encourage you to submit your application as early as possible.

The 2023 Space program is currently underway. Register your interest for 2024 by emailing iccadmin@unisa.edu.au

CONSIDERATIONS

- The Space category participants will also have the opportunity to apply for an overseas tour as party of their program to network with relevant space industry experts and other startups
- Space applicants may also have access to relocation grants. See FAQs for more information.

SOCIAL ENTERPRISE

SUPPORTED BY THE PANK FAMILY

The Social Enterprise category is supported by Pank Family who support social innovation and enterprises developed by UniSA students or alumni.

Formally known as the Pank Prize for social innovation and enterprise, this category ensures that new ideas that come out of the University have the support and mentoring needed to set up a new and innovative social enterprise in South Australia.

WHO CAN APPLY?

Students, staff and alumni of the University of South Australia may apply.

ELIGIBILITY

- Application must be an innovative social enterprise
- Social enterprises are businesses that have a social purpose. They may be not-for-profit or for-profit, but their main goal is to service community needs with profit secondary.

CONFLICTS OF INTEREST

COVID-19

ELIGIBILITY CRITERIA

- Applicants must be proposing an idea for a startup, which Venture Catalyst defines as being an entrepreneurial venture that aims to meet a marketplace need by developing or offering an innovative and potentially globally scalable product, process or technology or service
- Applicants must have an understanding of any intellectual property and either have ownership, rights to acquire it or be able to clearly demonstrate that the idea, product or service has first-mover advantage in the marketplace.
- For the general and social enterprise categories, applicants must be a student, staff member or alumni of the University of South Australia.

MERIT CRITERIA

Team The Assessment Panel will be looking for a well-balanced team that can demonstrate an understanding of the skills and experience that is required to successfully execute on their idea. While single founders are accepted into Venture Catalyst, the Assessment Panel strongly recommends you seek out people who compliment and round out the skills and experience in your team.

Value proposition The selection panel will be looking for evidence that your solution is solving a real problem that exists in the market. Make sure you identify your market and how this market will use (and pay for) your product to solve a real problem.

Business sustainability and differentiation Demonstrate how the concept is different from others in the market and how that competitive advantage would be sustained.

You may also wish to consider the following in your application:

A lead customer Explain how the product, service or process is demand driven, which includes an evidenced willingness from a lead customer to contribute to further development or to purchase the product, service or process.

Business scalability Demonstrate scalability i.e. it has a larger (potentially global) market and distribution channel(s), which provide opportunities for sales growth of the product, process or service.

APPLICATION PROCESS

APPLICANTS WILL NEED TO COMPLETE THE FOLLOWING

1

Download and fill out the application form at icc.unisa.edu.au. Applicants must also send a link to their two-minute video to complement their application form. (More information about the video is in the application form.)

2

If your application is shortlisted, you will be asked to attend an informal discussion with the members of the program potentially on short notice.

3

An assessment panel will review your application, and the outcomes from your discussion with the program members.

4

The assessment panel will endeavour to notify you of the outcome of your application as soon as possible. Decisions of the assessment panel are final.

5

Program agreements will be signed with successful projects and startups. Planning and work commences.

APPLICATION REQUIREMENTS

- A short application form outlining the business concept and addressing the three key criteria
- A two-minute video introducing the concept and the team to the selection panel.

Email VentureCatalyst@unisa.edu.au

CONFIDENTIALITY

Your application will be treated as confidential.

Some non-confidential information about successful applications will be provided publicly, including, but not limited to, the names of shortlisted or successful applicants and a brief description of the project.

Applicants will have the opportunity to approve this material before publication.

CONFLICTS OF INTEREST

Members of the assessment panel will be required to disclose any actual or potential conflicts of interest and remove themselves from the assessment of those applications wherever those conflicts exist.

COVID-19

During this difficult time the world is collectively experiencing, the ICC is committed to continuing to do what we do; support startups. Our Venture Catalyst program has been designed for both face-to-face and online delivery.
