

The Innovation & Collaboration Centre (ICC) is the University of South Australia's startup incubator.

The ICC engages with the community through the delivery of community events, workshops and programs which draw on the research and professional expertise of UniSA and our partners, to support the generation of new startups and the growth of existing companies.

The ICC is headquartered in Adelaide and has a regional centre in Whyalla, South Australia.

Adaptation AI

Artificial Intelligence company developing smart and innovative solutions for business

BENEFITS

- Business process optimization
- Custom AI solutions.

BACKGROUND

Adaptation AI was founded on the idea of creating an artificial intelligence company that would work with businesses and industry leaders to develop sustainable and future thinking solutions.

Adaptation AI uses artificial intelligence as their key enabling technology to help design custom solutions for businesses looking to innovate.

Adaptation AI works with businesses to develop custom solutions and optimize business processes using data analysis, machine learning and artificial intelligence techniques. This will allow businesses to work smarter, be more efficient, create greener and more sustainable solutions and shake up industries using disruptive and creative solutions.

TECHNOLOGY

Adaptation AI uses artificial intelligence, data analysis and machine learning technologies to create innovative and smart solutions to automate and optimize business processes.

ADAPTATION AI

Willie Prosek
AI Engineer

Ramona McFarlane
Business Operations
Manager

Paul Robinson
